

What goes in the IARD Policy Tables?

The IARD policy tables collect legislation, regulations, and guidelines set by governments and health authorities in all countries for which IARD has been able to verify the information with the respective national authorities or through publicly accessible documents. These tables include the minimum legal age limits

for the purchase, sale, and consumption of alcohol; labeling requirements for bottles plus health warning requirements for labels and at point of sale; blood alcohol concentration (BAC) limits for drivers; and drinking guidelines for the general population and for pregnancy and breastfeeding.

The tables are updated on an ongoing basis through monitoring of news sources. Periodically, each table is updated in full by newly performing searches as outlined below and verifying the contents against reference documents.

CONTENTS OF IARD'S POLICY TABLES

+ What is included	- What is NOT included	i IARD typically verifies table information via:
IARD Policy Table: Drinking guidelines general population 		
<ul style="list-style-type: none"> ▶ General population ▶ Elderly ▶ Young people <p>Guidance provided by government institutions <i>directly</i> to the public on alcohol consumption</p>	<p>Guidance on drinking levels from SAOs, NGOs, or research institutes that are not mandated by the government for this specific purpose</p> <p>Standards of clinical care, technical guidance for medical professionals or other providers.</p>	<p>Health ministry website, sections on prevention (general, of NCDs, of alcohol misuse / addictions)</p> <p>Websites of national health promotion institutions, national institutions focused on preventing harmful drinking</p> <p>Websites of national institutions that produce or disseminate dietary guidelines (include only if these are endorsed by the government for issuing such guidelines); see for example Error! Hyperlink reference not valid.</p>
IARD Policy Table: Drinking guidelines pregnancy and breastfeeding 		
<p>Guidance provided by government institutions <i>directly</i> to the public on alcohol consumption when attempting to conceive, while pregnant, and while breastfeeding</p>	<p>Guidance on drinking levels from SAOs, NGOs, or research institutes that are not mandated by the government for this specific purpose</p> <p>Standards of clinical care, technical guidance for medical professionals or other providers</p>	<p><i>Same as above</i></p> <p>Health ministry website sections on health when attempting to conceive, while pregnant, and while breastfeeding</p> <p>Resources aimed at the public provided by national programs to support healthy pregnancy, infancy, and breastfeeding</p>
